## RMTD

Medium Temperature Reach-In with EcoVision Doors

Extra-tall Reach-In  
with EcoVision Doors  
for medium temperature  
merchandising, excellent  
product visibility, and high  
volume displays.

- Available in 2, 3, 4, and 5 door configurations.
- 30" reach-in style EcoVision Doors for excellent product visibility, easy product access, and good energy efficiency.
- Full access top shelf and approx. 22" deep bottom deck for great merchandising with extra product facings.
- Accommodates up to 26" shelves for maximum packout.
- Slim frame and handle design and concealed LED's improve product visibility.
- No-heat door and frame and argon-filled glass pack provide energy efficiency with great ambient performance; approx. 50% energy reduction versus previous offering.

# RMTD

## Versatility for Medium Temperature Applications

- RMTD can be used as “destination zone” for meals to go, high margin seasonal displays, or any other medium temperature application.
- The case front was lowered to keep products within easy reach.
- EcoShine II LED Lighting is standard and is optimized for uniform brightness and low energy costs.

Options Include:

- Various ends, up to 26” shelves, racks, lighting, paint, and bumper colors.
- Motion activated dimming or on/off control for case lights.

Available Sizes:  
2, 3, 4,  
and 5 door  
models
